ABOUT US

THREE DECADES IN THE BUSINESS OF TRUST.

For 26 years, Microtel Informatics Pvt Ltd has designed, delivered and supported Extra Low Voltage (ELV) systems across hotels, hospitals, educational campuses, residential, commercial, retail and corporate environments in South India. What began as a networking and voice solution provider has grown into a full-scope ELV integration partner trusted by architects, developers, hotel chains, institutions and brands for projects where experience, uptime and reliability cannot be compromised.

VERTICALS SERVED
UNDER ONE ROOF

A SINGLE POINT OF ACCOUNTABILITY.

We operate as a single point of accountability across every ELV discipline — automation, networking, security, fire and life safety, audio-visual and unified communications — so projects are commissioned on schedule and remain serviceable for the life of the building.

CORPORATE

VERTICALS WE SERVE

ONE INTEGRATOR, FIVE BUSINESS SEGMENTS.

Every vertical has its own operating rhythm and compliance needs. Our design and execution teams tailor ELV scope to how each space is actually used — day to day and at scale.

01

Hospitality

Hotels & resorts — room automation, guest Wi-Fi, unified communications, CCTV, CATV, fire safety, BGM and paging built around the guest journey. Our OFC solution for hotels and resorts is practical, rugged and very economical, requiring almost one third of the cables used in conventional copper solutions.

02

Education

Schools, colleges & campuses — smart classrooms, campus-wide networking, Wi-Fi management, CCTV, access control, and PA/emergency notification.

03

Home Automation

Residences & villas — both wired and wireless solutions. KNX/DALI lighting and climate scenes, curtain/shutter controls, HVAC, Wi-Fi, home theatre, security, and voice-controlled living spaces.

04

Corporate & Institutional

Offices & boardrooms — structured cabling, enterprise networking, Wi-Fi, PAVA, video conferencing, and unified voice solutions.

05

Retail & Showroom

Textile & retail showrooms — ambient lighting control, digital signage, in-store audio, CCTV, Wi-Fi, unified communication and footfall-ready networking.

SERVICE PORTFOLIO

CORE ELV INFRASTRUCTURE.

01

Automation Solutions

Wired and wireless automation for hotels, malls and residences. KNX/DALI-based lighting scenes, HVAC and curtain control for hotel rooms, homes, large commercial buildings and smart classrooms — centrally programmed and scalable.

02

Structured Cabling & Networking

CAT6/CAT6A and fibre backbone design, core-to-edge switching, GPON/passive optical networks, and enterprise-grade Wi-Fi.

03

CCTV & Access Control

IP surveillance and RFID/biometric access control for hotels, hospitals, campuses, showrooms, offices, residences and back-of-house areas. Advanced features including vehicle number plate detection, face detection, people counting and perimeter protection.

04

Fire Detection & Life Safety

Addressable and conventional fire alarm panels, voice evacuation, and BMS-integrated safety design compliant with NBC and local fire NOC norms.

05

Background Music & Paging

Zone-based BGM, public address, and emergency notification systems for hotels, hospitals, showrooms, campuses, lobbies and banquets.

06

Design, Project Management & AMC

End-to-end ELV design, BOQ engineering, value engineering, vendor coordination, site execution, post-handover warranty services and annual maintenance contracts.

SERVICE PORTFOLIO

AUDIO-VISUAL & UNIFIED COMMUNICATION.

01

Smart Classroom Solutions

Interactive flat panels, document cameras, classroom audio, and centralised AV control for schools, colleges and training rooms.

02

Voice Solutions

IP-PBX and unified voice systems, structured voice/data cabling, and paging integration for campuses and corporate offices.

03

Video Conferencing Solutions

Boardroom and huddle-room VC systems, camera and microphone arrays, and platform integration (Teams/Zoom/Meet-ready rooms).

04

Home Automation

Whole-home wired and wireless solutions. KNX/DALI lighting, curtain control, HVAC and climate scenes, home theatre, video door phones, and voice-controlled living spaces.

05

Textile & Retail Showroom Solutions

Ambient and accent lighting control, digital signage, in-store audio zoning, CCTV, and Wi-Fi engineered for showroom footfall.

06

Structured AV Cabling

HDMI/AV-over-IP backbone, rack design, and signal distribution for auditoriums, boardrooms and multipurpose halls.

OUR FOOTPRINT

REGIONAL PRESENCE, ON-GROUND SUPPORT.

Five offices across South India put engineering, project management and AMC support within reach of every job site — across hospitality, education, residential and corporate projects alike.

WHY MICROTEL

WHAT SETS US APART.

Single-Vendor Accountability

One team designs, executes and maintains every ELV discipline — no finger-pointing between contractors.

Multi-Vertical Expertise

26 years of experience spanning hospitality, education, homes, corporate offices and retail showrooms.

Regional Reach, Personal Service

Five offices across Kerala, Tamil Nadu and Karnataka keep response times short and relationships direct.

Vendor-Neutral Sourcing

Established distributor relationships across Bangalore, Chennai and Hyderabad ensure competitive, transparent pricing.

Documentation & Compliance

As-built drawings, O&M manuals and fire-NOC-ready documentation delivered with every project.

Long-Term Serviceability

AMC contracts and spares planning designed around the real operating life of every building type we serve.
